Green's Biology Crash Course videos. This workbook can be used to focus students either with or without headphones on a laptop while watching the desired YouTube video thus eliminating distraction in a desired setting. Questions posed are in accordance with AP high school biology standards (aka college level biology standards) and can be used in order to improve test scores, content understanding, and effectively build upon essay structure in writing about topics in biology. Target audience includes but is not limited to native English speakers and English language learners ages 15-22. Note: Those without access to YouTube can still use these guiding questions as a guide in order find answers using their respective biology book, and by looking up answers using bolded key terms and vocabulary. Questions posed in this book are meant to inspire paragraph development including intro, thesis, body, and conclusion paragraph structure while affording the reader opportunities to analyze, evaluate, and reflect upon a wide number of topics found in biology.

Provides a basic biology review, a guide to homework assignments, and preparations for exams.
