Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Includes index.

The Board Review Series (BRS) is aimed at providing basic knowledge as it relates to clinical situations and is used primarily by medical students studying for the United States Medical Licensing Examinations (USMLE). BRS Behavioral Science, Fifth Edition covers material on this subject that is addressed on USMLE Step 1, written in outline format to provide an efficient method of studying behavioral science for USMLE. The book includes at least 500 USMLE-style questions with accompanying annotated answers. An exam follows each chapter and a Comprehensive Exam is included at the end of the book. A companion Website will offer the fully searchable text and an interactive question bank.

Detective Sergeant Mariko Oshiro has been promoted to Japan's elite Narcotics unit-and with this promotion comes a new partner, a new case, and new danger. The underboss of a powerful yakuza crime syndicate has put a price on her head, and he'll lift the bounty only if she retrieves an ancient iron demon mask that was stolen from him in a daring raid. However, Mariko has no idea of the tumultuous past carried within the mask-or of its deadly link with the famed Inazuma blade she wields. The secret of this mask originated hundreds of years before Mariko was born, and over time the mask's power has evolved to bend its owner toward destruction, stopping at nothing to obtain Inazuma steel. Mariko's fallen sensei knew much of the mask's hypnotic power and of its mysterious link to a murderous cult. Now Mariko must use his notes to find the mask before the cult can bring Tokyo to its knees-and before the underboss decides her time is up....

This book cover the main electronics components of the Diesel Common Rail injection systems. It goes into details on Piezo-injectors, fuel pressure sensors, high pressure operation, electrical characteristics of the injector pulse, pressure regulator, injector crystal stack description and it electronics. A complete first book for anyone, technician or layman alike to get his/her bearings on the technology.

This year the 21st International Conference on Human-Computer Interaction, HCI 2019, which was held in Orlando, Florida, USA, in July 2019, introduced the additional option of "late-breaking work", which applied both for papers and posters with the corresponding volumes of the proceedings. The 47 late-breaking papers included in this volume were published after the conference has taken place. They were organized in the following topical sections: user experience design and evaluation; information, visualization, and decision making; virtual and augmented reality; learning and games; human and task models in HCI; and design and user experience case studies.
