How Does Car Relocation Work? The idea is pretty easy. Just remember your trip is determined by the pick-up and drop off points decided by the rental company, not you. Step 1: Check for availability of cars and campervans on rental websites and book online. Step 2: Pick up the car from the specified pick-up point. You will likely have to pay a bond for the rental.

In our simple guide to EV charging, we discussed each aspect of the equation. Drivers starting out should be aware of the basics: Level 1 (110v) charging on standard outlets delivers only 2-3 miles of range per driving. Level 2 (240v) charging may deliver as much as 25 miles per hour, depending on the onboard charger.
