Barbara Yambura was truly an Amana Dauther, descendant of a people in whose tradition and lineage she took pride. She delighted in sharing her rich Amana experiences and the vivid memories of her youth and young womanhood. In this personal account, she has been sensitive to the significance of this unique social experiment and sympathetic to the inevitable change destined to occur. 'Anna's' story is, in truth, an authentic chronicle which will serve history for many years to come. "This account of a typical childhood as experienced by those isolated from the outside world should be read as a piece of authentic Americana, and as Americana it is recommended."-Library Journal

Bestselling Author Judith Miller Debuts New Series Set in the Amana Colonies When Karlina Richter finds out that a new shepherd will be sent to East Amana, she fears she'll no longer be able to help her father with the sheep. She'll be relegated back to kitchen work, a job she dislikes. Her fears increase when Anton Becker arrives and shows little interest in the flock--or in divulging why he's been sent to East. Dare she trust Anton to help her father, or is he keeping secrets that will impact them all? After learning that her father will be transferred from Cincinnati to a job in Texas, Dovie Cates decides she wants to visit the Amana Colonies, where her mother spent her formative years. She writes to relatives still living in the Colonies and is invited to spend some time there. Soon after her arrival, Dovie meets Berndt, the handsome young man who delivers bread to the kitchen house each day. But when Dovie begins to ask questions about her mother's past, no one seems willing to tell her anything, so Dovie decides to take matters into her own hands. Will her decision spell disaster for her future with Berndt?

All Gays Go to Heaven is the memoir of Reece Manley's life challenges, life affirmations and insights on the fact that All Gays Go to Heaven.

The author focuses on the marketing perspective of the topic and illustrates how women's roles in society have shifted during the past century. Among the key issues explored is a peculiar dichotomy of American advertising that served as a conservative reflection of society and, at the same time, became an underlying force of progressive social change. The study shows how advertisers of housekeeping products perpetuated the Happy Homemaker stereytype while tobacco and cosmetics marketers dismantled women's stereotypes to create an entirely new type of consumer.

Grossman and Jennings examine 15 industrial companies and find unique characteristics in their values and management styles--characteristics that other companies would be wise to understand and emulate. Each of the example companies knew they were in business to make money. Dynamic, questioning, and actively in step with society's changes, they constantly asked themselves one critical question: What business are we in? The answers they found, the principles of management they discovered and practiced, and the values they recognized and adopted all led to prosperity. In the current age of gurus, buzzwords, and fad theories, these companies' stories reaffirm that there are notions, principles, and management techniques that have proved themselves over time and can lead an organization toward a profitable, enduring corporate life. The authors offer frank insights into how businesses survive and grow. Anecdotal but based on solid research, with clarifying diagrams and other illustrations, this book is a major contribution to our understanding of the past, and a view of what is best in the future of today's organizations.
