Provides students with songs and activities to increase their understanding of music and its diversity.

An expanded four-CD set is new to this edition. The new compilation includes 107 tracks constituting a full five hours of music, with more than an hour's worth of new music in all. The same emphasis on high-quality, professional recordings by the likes of Ravi Shankar, John Coltrane, Tito Puente, Santana, Shakti, Angélique Kidjo, The Chieftains, Eileen Ivers, and Yo-Yo Ma that defined the first edition has carried over to the second edition, and the compilation has been enhanced by the addition of 19 brand new tracks (see list of new tracks, pp. xxvi-xxvii). As with the first edition, a high level of integration and synergy between the music on the CD set and the content of the text is a hallmark feature of the second edition. A "music first" priority, in which the music drives the text rather than the other way around, is emphasized throughout.

Music: An Appreciation remains the time-tested solution for welcoming non-majors to the art of listening to great music. Now, Roger Kamien places a renewed focus on learning the elements of music, fostering each student's unique path to listening and understanding. This is achieved through step-by-step guidance as they learn the elements of music, as well as an increased number of musical selections to appreciate, and an enhanced McGraw-Hill Connect experience. As the authority in the Music Appreciation course, Kamien equips students with the language, tools and listening skills required to sustain a life-long enthusiasm for music.

Twenty-three contributors turn a critical lens on the dominant music education paradigm to examine how we teach, what we teach, for what we teach, what is expected of teachers and how we teach them, whom we should be teaching, and the very assumptions and structures of which we base our practice.
