Canadian families fear clearing Boeing 737 MAX planes for ...

An example of an FMC in a Boeing 737. Luckily, we don't have to fly all these steps ourselves. We can program our plan into the Flight Management Computer, or FMC. This computer can be seen as the brains of the operation and provides all the functions to plan the flight path from take-off to landing.

How to Take Off and Land a Boeing 737 ... - Flight Sim Guide

The Maneuvering Characteristics Augmentation System (MCAS) flight control law was designed and certified for the 737 MAX to enhance the pitch stability of the airplane – so that it feels and flies like other 737s. MCAS is designed to activate in manual flight, with the airplane's flaps up, at an elevated Angle of Attack (AOA).

Boeing: The 737 MAX MCAS Software Enhancement

Access Free Boeing 737 Flight Management Computer Manual

LE BOURGET -- GE Aviation recently delivered the 10,000th flight management computer (model 2907C1) to The Boeing Company marking an era of continuous partnership in support of the versatile 737 airplane. "GE's flight management system has been standard fit on the Boeing 737 since 1984. The current system, now in its 4th evolution, will meet 737 needs into the future," said Alan Caslavka, president of Avionics and Digital Systems for GE Aviation.
