A bold manifesto by two business leaders, *A Billion Bootstraps* shows why microcredit is the world's most powerful poverty-fighting movement-and an unbeatable investment for your charitable donations. *A Billion Bootstraps* unearths the roots of the microcredit revolution, revealing how the pioneering work of people such as Dr. Muhammad Yunus-winner of the 2006 Nobel Peace Prize-is giving hope to billions. Philanthropist and self-made millionaire Phil Smith and microcredit expert and consultant Eric Thurman provide a riveting narrative that explores how these small loans, arranged by “barefoot bankers,” enable impoverished people to start small businesses, support their families, and improve local economies. By paying back their loans instead of simply accepting handouts, men and women around the world are continually giving others the same opportunity to change their futures. Smith and Thurman also examine why traditional charity programs, while providing short-term relief, often perpetuate the problems they are trying to alleviate, and how applying investment principles to philanthropy is the key to reversing poverty permanently. *A Billion Bootstraps* explains how ordinary people can accelerate the microcredit movement by investing charitable donations in specific programs and then leveraging those contributions so the net cost to lift one person out of poverty is remarkably low. You'll discover how to get more for your money by donating with the mind-set of an investor and calculating measurable returns-returns that will change lives and societies forever.

The purpose of this book is to remove the veil of secrecy surrounding SAP upgrade techniques and concepts, and to provide the user with a detailed description of the steps needed for a successful implementation. Today more than 12 million people in 120 countries who are working for 36,200 companies are using SAP on a regular basis. This popular, but very complex software system must be constantly reconfigured and upgraded to accommodate its latest releases. Upgrading SAP provides a

complete overview of the process to upgrade from one SAP release to the next one and explains with detailed descriptions, the use of all relevant SAP upgrade tools. Along with a technical description of the SAP NetWeaver Application Server (AS), it also discusses personnel issues and the economic ramifications of such an upgrade project. Examples in this book are based on various different SAP products and releases, such as SAP NetWeaver 2004, 2004S (also known as NetWeaver 7.0 and 7.1), and SAP Business Suite 2005 with SAP ERP 6.0, BI, CRM, SCM, and SRM. Conceived as both a teaching book and as a reference manual, it covers all the techniques, background information, notes, tips, and tricks needed for any SAP upgrade project. A CD-ROM accompanies the book with templates and outlines for the upgrading process, as well as third-party SAP-related material.

Business needs change. And it needs it in ways, at a rate and on a scale that is unprecedented. Current success rates for organizational change projects are dismal and are likely to remain so until organizations reinvent their approach to project delivery, and learn how to integrate Change Management and Project Management successfully. In this ground-breaking and innovative book, Gabrielle O Donovan shows you how to design strategy, structures and processes to realize this integration and deliver sustainable and commercially powerful business change. She opens the book by providing the context, describing both the problem and the solution; how the disconnect between Project Management and Change Management feeds the 40 – 70 per cent failure rate and the laying of many a dud egg; and how cross-discipline integration efforts thus far have only addressed the tip of the iceberg, ignoring the subterranean cultural element that can divide or unite project teams. From there, she profiles Project Management and Change Management in turn and, crucially, the value and service propositions of these respective disciplines and the different theories, models and tools they employ. In the second half of

the book she makes a ' Project and Change Partnership ' (PCP) culture explicit and measurable, articulating those cultural assumptions that will support an effective alliance and that relate to those universal problems all organizations face regarding the macro environment, external adaptability and survival, and internal integration. From there, she describes how Project Managers and Change Managers can cooperate daily by dividing work packages and activities throughout the end-to-end project lifecycle. Project leaders who instill a PCP culture will benefit from the unique value that these interdependent disciplines bring to project delivery. It is they who will lay golden eggs and realize business benefits. Making Organizational Change Stick is written for project leaders, Change Managers, Project/Programme Managers, design thinkers, business architects and anyone concerned with business change.

Integrating business law with ethics and effective management, Bagley's **MANAGERS AND THE LEGAL ENVIRONMENT: STRATEGIES FOR THE 21ST CENTURY**, 8E equips future managers with the legal knowledge and risk management techniques essential for success in global business. Renowned for its cutting-edge coverage and strategic approach, this book offers one of the most comprehensive yet easy-to-understand presentations of today's global legal environment of business. Proven learning features such as Inside Story and Perspective boxes illustrate how the law impacts daily management decisions and business strategies, and A Manager's Dilemma feature challenges readers to consider such issues as whether to outsource labor to a country known for poor working conditions and the ethics of structuring a business to avoid domestic taxes. Fulfilling AACSB requirements, the eighth edition addresses the legal, political, regulatory, and ethical dimensions of business. Reflecting the latest developments and decisions, the text's up-to-date coverage includes the regulation of commercial speech,
