This edition of Swokowski's text is truly as its name implies: a classic. Groundbreaking in every way when first published, this book is a simple, straightforward, direct calculus text. It's popularity is directly due to its broad use of applications, the easy-to-understand writing style, and the wealth of examples and exercises which reinforce conceptualization of the subject matter. The author wrote this text with three objectives in mind. The first was to make the book more student-oriented by expanding discussions and providing more examples and figures to help clarify concepts. To further aid students, guidelines for solving problems were added in many sections of the text. The second objective was to stress the usefulness

of calculus by means of modern applications of derivatives and integrals. The third objective, to make the text as accurate and error-free as possible, was accomplished by a careful examination of the exposition, combined with a thorough checking of each example and exercise.

Prepare for exams and succeed in your mathematics course with this comprehensive solutions manual! Featuring worked out-solutions to the problems in CALCULUS: THE CLASSIC EDITION, 5th Edition, this manual shows you how to approach and solve problems using the same step-by-step explanations found in your textbook examples.

and apps that are more intuitive and engaging, because they match the way humans think, work, and play. Updated to reflect the latest scientific findings, this full-color, relentlessly practical guide will help you whether your background is in visual design, interaction design, programming, or anything else. Weinschenk will help you improve the many design choices you make every single day -- from choosing fonts and chunking information to motivating people and guiding them towards purchase. Not just another "web design guidelines" book, *100 Things Every Designer Needs to Know About People*, 2nd Edition explains the why behind the guidelines, and exposes the many web design myths and "urban legends" that stand in your way. Dr. Weinschenk shows you what makes humans tick, and helps you translate that
