take to ensure its health. This comprehensive and practical book is designed to assist cat owners in understanding their pets' bodies and health based on signs and symptoms of disease, and in determining the most common medical problems that might cause particular symptoms. Adopting the "decision chart" format from popular symptom guides for human ailments, such as the American Medical Association's Guide to Your Family's Symptoms and Take Care of Yourself, five leading veterinarians have designed a user-friendly chart system that will guide a pet owner from noting the symptom and observing the cat's behavior to understanding the associated signs of an illness, the possible conditions, and the best steps to take. Filled with more than 150 charts in an easy-to-follow two-color format and medical drawings, The Veterinarians' Guide to Your Cat's Symptoms is the indispensable reference for cat owners. It not only considers the problems of sick and injured pets, but also addresses the needs of healthy animals. It has all the information a cat owner needs:

- What a healthy cat should look like
- Flow charts to the 200 most common symptoms
- Behavioral issues, such as spraying and clawing
- Emergency first aid, including transporting an injured cat
- A glossary of veterinary diagnostic tests and medical terms

With this unique combination of medical information and advice, plus an innovative chart system, The Veterinarians' Guide to Your Cat's Symptoms will ensure that your cat really does have nine lives.
