While air conditioning was an option on 340s, in most parts of the country, pressurized airplanes need air conditioning. Some aircraft have swapped their factory systems for the electrically powered Keith/JB system. Known ice certification was offered in 1977 but deice systems were available prior to that.

The Twin Cessna Flyer Supporting the Owners of Twin Cessna ...

The Cessna 340 is a twin piston engine pressurized business aircraft that was manufactured by Cessna. The Cessna 335 is an unpressurized version, which appears the same externally as the 340. It sold in fewer numbers than the 340. Design and development. The 340 was conceived as a cabin-class development of the successful Cessna 310. The 340 is a six-seat aircraft, with four passenger seats ...
