This work takes a real-world, single focus company approach in every chapter. The decision-making focus shows the relevance of financial accounting regardless of whether the student has chosen to major in accounting.

This Global edition has been designed specifically to meet the needs of international financial accounting students. The text successfully implements a real-world, single focuscompany approach in every chapter. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting in the real world. Inaddition to the latest examples of both contemporary and traditional topics, new material has been added to make the content more relevant and improve learning outcomes for the international student.

No other accounting text takes you further than the best-selling CENTURY 21 ACCOUNTING ADVANCED 9th Edition, 2012 UPDATE. This leading text now features a student-driven design and presentation with the help of a first-of-its-kind Student Advisory Board. This authoritative leader in accounting education places the advantage of more than 100 years of accounting success into your hands with a fresh, clean presentation. CENTURY 21 ACCOUNTING ADVANCED expands on topics introduced in the first-year course while adding new topics about time value of money, management accounting, cost accounting, not-for-profit accounting, and financial analysis. You'll find commercial technology such as Microsoft Excel, Peachtree(R), and QuickBooks(R) integrated into the end of every chapter to better prepare you for future on-the-job success. A unique focus on financial literacy addresses important business and personal finance topics, while an emphasis on character prepares you for ethical challenges at the forefront in the field of accounting today. Examples selected by students like you and drawn from companies such as Blockbuster, Trek Bicycles, Procter & Gamble, and Toyota connect chapter topics to real-world business experiences. Count on this complete text and its comprehensive learning support for the advantages to move you ahead in today's times. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

"Fundamental Managerial Accounting Concepts" 4e by Edmonds/Edmonds/Tsay/Olds focuses on concepts that are isolated and introduced in a logical sequence. The authors intentionally limit the scope of the material to help students build a solid foundation of the most important concepts in managerial accounting. "Fundamental Managerial Accounting Concepts" 4e is organized in a distinctive way, particularly in the first six chapters. The objective is to establish a coherent, integrative framework that enables students to build knowledge in stepwise fashion. The authors' goal is for students to understand the underlying principles of accounting, not just memorize content.

Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting.
