Cost Control and Reduction - Encyclopedia - Business Terms ...

Cost control and cost reduction are two terms that are sometimes used interchangeably; however, they have different meanings. These two represent an integral part in cost accounting, gaining constant attention of management. The key difference between cost control and cost reduction is that cost control is the process of maintaining costs at estimated levels while cost reduction aims to lower unit cost of production without compromising on the quality.

Difference Between Cost Control and Cost Reduction ...

First published in 2002, Cost Reduction and Control Best Practices quickly became a trusted resource for financial managers in companies large and small. Expanded and extensively updated, this edition includes the latest strategies companies are using to control costs, plus new chapters focusing on outsourcing costs, downsizing, consultants' costs, and business tax costs.

Buy Cost Reduction and Control Best Practices: The Best ...

The following are the main differences between Cost Control and Cost Reduction: Cost Control focuses on decreasing the total cost of production while cost reduction focuses on decreasing per unit cost of a product. Cost Control is a temporary process in nature. Unlike Cost Reduction which is a permanent process.

Cost Control and Cost Reduction: Definition and Differences

Cost Reduction and Control. Cost reduction and control within a company is often the product of decisions and actions deployed in an unstructured and uninformed manner. Unfortunately, many companies try to control or reduce costs only by indiscriminately cutting costs resulting typically in the premature loss of key resources, knowledge, compliance, risk and generally poor performance leading to service deterioration.
