GRAPHICALLY RICH: "Coding games in Python" has the same level of beautiful color art as "Creative Coding in Python" but has 210 pages instead of 130 and then puts 2X the information on each page. It gives TONS of coding examples and then tells you what each piece of code does. It's by FAR better than "Creative Coding".

Since I started learning Python, I decided to maintain an often visited list of "tricks". Any time I saw a piece of code (in an example, on Stack Overflow, in open source software, etc.) that made me think "Cool! I didn't know you could do that!" I experimented with it until I understood it and then added it to the list.
