More than fifty trailblazing executive women who broke the corporate glass ceiling offer inspiring and surprising insights and lessons in this essential, in-the-trenches career guide from Joann S. Lublin, a Pulitzer-Prize winning journalist and management news editor for The Wall Street Journal. Among the first female reporters at The Wall Street Journal, Joann S. Lublin faced a number of uphill

battles in her career. She became deputy bureau chief of the Journal's important London bureau, its first run by women. Now, she and dozens of other women who successfully navigated the corporate battlefield share their valuable leadership lessons. Lublin combines her fascinating story with insightful tales from more than fifty women who reached the highest rungs of the corporate ladder—most of whom became chief executives of public companies—in industries as diverse as retailing, manufacturing, finance, high technology, publishing, advertising, automobiles, and pharmaceuticals. Leaders like Carly Fiorina, former CEO of Hewlett-Packard, as well as Mary Barra, CEO of General Motors, and Brenda Barnes, former CEO of Sara Lee, were the first women to run their huge employers. Earning It reveals obstacles such women faced as they fought to make their mark, choices they made, and battles they won—and lost. Lublin chronicles the major milestones and dilemmas of the work world unique to women, providing candid advice and practical inspiration for women of all ages and at every stage of their careers. The extraordinary women we meet in the pages of Earning It and the hard-won lessons they share provide a compelling career compass that will help all women reach their highest potential without losing a meaningful personal life.

A retired Wall Street Journal editor and mother compares two generations of women—boomers and GenXers—to examine how each navigates the emotional and professional challenges involved in juggling managerial careers and families. For the first time in American history, a significant number of mothers are heading

major corporations, including General Motors, Ulta Beauty, and Best Buy. Over the past several decades, women have made gains throughout executive suites. Yet these “Power Moms” still struggle with balancing their management responsibilities with raising children. Joann S. Lublin draws on the experiences of the nation’s two generations of these successful women to measure how far we’ve come—and how far we still need to go. Lublin combines her own insights with those of eighty-five executive mothers across industries—including experienced public-company chiefs such as Carol Bartz, the first woman to command Autodesk and Yahoo; Hershey’s Michele Buck, DuPont’s Ellen Kullman, ITT’s Denise Ramos, and WW International’s Mindy Grossman—and twenty-five of their grown daughters. Lublin reveals how trailblazer boomers, many now in their sixties, often endured sweeping disapproval for their demanding management careers, even as their own daughters sometimes rejected their choices. While the second wave of executive mothers—all under forty-five—handle working parenthood with less angst, they still lead stressful lives. Power Moms provides lessons and advice to help today’s professional women, their families, and their employers navigate this challenging terrain. Lublin looks at the trade-offs mothers are too often forced to make between work and family and the root causes, including the dearth of large-scale paid parental leave and other family-friendly policies. While it celebrates the gains women have made, Power Moms makes clear how much more must be done to make being a working mother easier.

A fascinating and candid memoir about successful leadership from the former CEO of General Electric, named one of the “World’s Best CEOs” three times by Barron’s, and the hard-won lessons he learned from his experience leading GE immediately after 9/11, through the devastating 2008–09 financial crisis, and into an increasingly globalized world. In September 2001, Jeff Immelt replaced the most famous CEO in history, Jack Welch, at the helm of General Electric. Less than a week into his tenure, the 9/11 terrorist attacks shook the nation, and the company, to its core. GE was connected to nearly every part of the tragedy—GE-financed planes powered by GE-manufactured engines had just destroyed real estate that was insured by GE-issued policies. Facing an unprecedented situation, Immelt knew his response would set the tone for businesses everywhere that looked to GE—one of America’s biggest and most-heralded corporations—for direction. No pressure. Over the next sixteen years, Immelt would lead GE through many more dire moments, from the 2008–09 Global Financial Crisis to the 2011 meltdown of Fukushima’s nuclear reactors, which were designed by GE. But Immelt’s biggest challenge was inherited: Welch had handed over a company that had great people, but was short on innovation. Immelt set out to change GE’s focus by making it more global, more rooted in technology, and more diverse. But the stock market rarely rewarded his efforts, and GE struggled. In *Hot Seat*, Immelt offers a rigorous and raw interrogation of himself and his tenure, detailing for the first time his proudest moments and his biggest mistakes. The most crucial component of leadership, he writes, is the willingness to make decisions. But knowing what to do

is a thousand times easier than knowing when to do it. Perseverance, combined with clear communication, can ensure progress, if not perfection, he says. That won't protect any CEO from second-guessing, but Immelt explains how he's pushed through even the most withering criticism: by staying focused on his team and the goals they tried to achieve. As the business world continues to be rocked by stunning economic upheaval, Hot Seat "takes you into the office, head, and heart of the man who became CEO of GE on the eve of 9/11, and then led the iconic behemoth for sixteen fascinating, and often turbulent, years. A handbook on leadership—and life" (Stanley A. McChrystal, General, US Army [Retired], CEO and Founder, McChrystal Group).

NATIONAL BESTSELLER "Hayley Wickenheiser is an incredible human being . . . this is what a billion hours of hard work looks like." —Ryan Reynolds The greatest women's hockey player of all time, Hayley Wickenheiser shares the lessons that won her four Olympic gold medals, and hard-earned wisdom distilled from moments when she fell short. There is no one in the world like Hayley Wickenheiser. 13 World Championship appearances. 6 Olympic Games. Hockey Hall of Famer. All while raising a child, earning multiple university degrees, and not benefiting from the financial stability male professional athletes have. She gave the game everything she had—now, Hayley shares what the game gave her. From motherhood to pro leagues to her new career in medicine, Hayley shares the hard-won lessons she learned on and off the ice that helped her not only have a record-

breaking hockey career but craft a life filled with joy, growth, and challenges. In her own words, Hayley shares how she rose from the backyard pond and changing in boiler rooms (because girls' dressing rooms didn't exist) to Olympic MVP (twice). How becoming a parent made her a better athlete. How she learned to thrive under monumental pressure. But she doesn't stop at revealing the pillars to her tremendous success—Hayley delves into her immense failures and how she grew from them. Like Kobe Bryant, Tom Brady, and Abby Wambach before her, Hayley shares her wisdom through personal stories of triumph, relentlessness, and more than a couple confrontations. Told with humour, compassion, and steadfast optimism, Hayley's practical advice, coaching, and invaluable perspective inspires readers to never accept "that's not the way we do things" or "that hasn't been done before" as limitations. An empowering and pragmatic guide, Hayley encourages readers to not follow in her footsteps, but to carve their own ice.

THERE ARE SOME PEOPLE WHO LIKE TO BE RIGHT. EVERY SINGLE TIME In their minds, there is always a winner and there is always a loser. Deep down, very few of us like these people. And yet, often we work for them, we work with them and perhaps we even identify as one of them. At times, I have been that person. It does not make me proud. True success comes from humility, compromise and connection. the London advertising scene, Hamish Thomson reveals that breakthrough and transformation come not from intellect or technical mastery, but from experience and observation of real-life occurrences. And sometimes the best solutions are the most counterintuitive. *It's Not Always Right to be Right* offers learning messages, practical steps, and shareable strategic frameworks to help drive change in individuals, teams and entire organisations. Including commentary and critique from 17 leading international business experts—leaders of global industry, diplomacy and advocacy—this seminal guide offers applicable lessons, robustly tested. Whether you're just starting out in the business and corporate world, in the middle of your career looking to break through, or in a global leadership position seeking meaningful change and exceptionalism, this guidebook will put you on the path to true business and personal success.

True stories and hard-won lessons about a life of hockey, from a Stanley Cup champion and top analyst. “I was unconscious before I hit the ice. The fight happened in New York, where just three years before I’d won the Stanley Cup with the Rangers. And now, I was literally fighting to keep my job with the Toronto Maple Leafs, to prove I could help my team. I didn’t know it, but my playing career was about to end.” As a child growing up in Toronto, Nick Kypreos lived for hockey and dreamed of following in his idols’ footsteps to play in the NHL. Hockey was an important part of the Kypreos household. It was largely through the game that his immigrant Greek parents acclimatized to their new lives in Canada, and from a

young age “Kyper” proved he was more than good enough to move through the ranks. But he was never a top prospect—he didn’t even attend the NHL draft when he became eligible. And yet, through dedication and constant improvement, he made it to the show. Kypreos built a career on his tireless work ethic and made a name for himself for always having a positive influence on team morale. A medium-weight fighter, he squared off with the league’s toughest players, including Chris Simon, Joey Kocur, and Scott Stevens—anything to give his team an edge. Ultimately, he was brought to the New York Rangers to help them win the Stanley Cup in 1994—their first in 54 years—with the legendary Mark Messier. And then he got to live his other dream: playing for his hometown team, the Toronto Maple Leafs. When a concussion forced him to retire early, it changed his life. But the lessons he’d learned on the ice over eight seasons helped him build a new career as a top hockey analyst and personality for Sportsnet. For twenty seasons he provided unique insight on the evolving game, and a player’s perspective on the biggest discussions of the day. Revealing, fun, and brutally honest, Undrafted shows the challenges of being a pro player. It’s a story of the resilience it takes to prove yourself every night, and how the right attitude can lead to the greatest success, not only in the arena, but in life.

The Navy SEAL, humanitarian and best-selling author of *The Heart and the Fist* draws on ancient wisdom and personal experience to counsel readers on how to promote personal resilience and overcome obstacles through positive action.

You can no longer count on old motivational tricks to inspire loyalty among your associates. The rules of leading have changed, and now you must be able to take a diverse team and win with them quickly. Barry Banther knows how to equip you for today's business world because he knows what lasting leadership is made of. He has identified five qualities that aren't things leaders have; rather, they are things they give away freely and frequently to everyone they lead in the workplace. By embracing and demonstrating the five qualities expounded in this book, you will become a leader who brings out the best in your associates, whether you're a new manager or you occupy a C-suite office. Banther consults with and trains the teams of CEOs of family-owned as well as Fortune 100 companies. He has been the lead consultant on more than 400 leadership development engagements and has written 50-plus leadership training programs that are used by companies worldwide. After a career in broadcasting and, later, teaching and administration at the college level, Banther served three Florida governors as their appointee to oversee private higher education and was elected to an unprecedented three terms as chairman of the Florida State Board of Independent Colleges and Universities. Having learned the hard way—caring about numbers rather than people—Banther can tell you with confidence that when leaders put others first they themselves become more valuable to their team and their company than any authority or job title could ever mandate! That's also the best way to grow your
