In the tradition of the smash hits Toy Story, A Bug's Life, Toy Story 2, Monsters, Inc., Finding Nemo, and The Incredibles comes the newest film from Pixar Animation Studios, Cars, the story of a race car who learns that it's not all about the fast lane. (In fact, life begins at the off-ramp.) Offering an insider's view into the artistic development of Cars, this gorgeously illustrated book celebrates the whimsical yet painstaking research that fueled Pixar's directors, production designers, and artists. Fascinating storyboards, full-color pastels, on-the-road snapshots, and hundreds of character sketches reveal the origins of Pixar's charming and clever automobile-based world. Gleaned from the team's trips to racetracks and down the famed Route 66, The Art of Cars is as colorful as its memorable story and characters, making this book—the only movie tie-in for adults—a spirited ride down the road of a masterful animated feature film. A practical, integrated approach for therapists working with child and adult patients impacted by developmental trauma and attachment difficulties Kathy L. Kain and Stephen J. Terrell draw on fifty years of their combined clinical and teaching experience to provide this clear road map for understanding the complexities of early trauma and its related symptoms. Experts in the physiology of trauma, the authors present an introduction to their innovative somatic approach that has evolved to help thousands improve their lives. Synthesizing across disciplines—Attachment, Polyvagal, Neuroscience, Child Development Theory, Trauma, and Somatics—this book provides a new lens through which to understand safety and regulation. It includes the survey used in the groundbreaking ACE Study, which discovered a clear connection between early childhood trauma and chronic health problems. For therapists working with both adults, children, and anyone dealing with symptoms that typically arise from early childhood trauma—anxiety, behavioral issues, depression, metabolic disorders, migraine, sleep problems, and more—this book offers hope for a happier, trauma-free life.

Webster's Dictionary lists the term showman as "a notably spectacular, dramatic, or effective performer." In the art of drag racing, Hubert Platt checked all boxes. Known as the "Georgia Shaker," Platt cut his motoring teeth on the long straightaways and twisty back roads of South Carolina while bootlegging moonshine. After a run-in with the law in 1958, Platt transferred his driving skills from illegal activity to sanctioned drag racing and began one of the most dominant runs in drag racing history until his retirement in 1977. After stints in 1957, 1938, and 1962 Chevrolets, Platt's next ride was a Z11 Impala, which carried his first "Georgia Shaker" moniker. Once Chevrolet pulled out of sanctioned racing, Platt found a new home with Ford for 1964 and remained there until he hung up his helmet. Some of the cars he campaigned became icons in their own right. His factory-backed and personal machines included a 1963 Z11 Impala, 1964 Thunderbolt, 1965 Falcon, 1966 Mustang Funny Car, 1967 Fairlane 427, 1968-1/2 Cobra Jet, 1969 CJ Mustang, 1970 427 SOHC Mustang, and 1970 Boss 429 Maverick. A 1986 NHRA Hall of Fame member, Platt's lasting legacy on the sport can't be denied. Whether he was launching his Falcon with the door open, conducting a Ford Drag Team seminar, or posting low E.T. at the 1967 US Nationals in his Fairlane, Platt's imprint on drag racing was all-encompassing. His son and biggest fan, Allen Platt, shares his dad's iconic career in, Hubert Platt: Fast Fords of the "Georgia Shaker"!
