Finance for the Nonfinancial Manager, Fourth Edition. If you're a manager, odds are you're playing a larger and more important role in the financial matters of your company. As today's marketplace becomes increasingly competitive, it's essential that all managers have a basic understanding of the tools, objectives, and functions of finance if they are to stay ahead of the competition. Covering the gamut of the "numbers" end of management, Finance for the Nonfinancial Manager helps you develop a sound basis for carrying out strategic financial planning and decision-making responsibilities. This comprehensive reference has served as an indispensable guide for executives, managers, and small business owners for almost two decades. Now in its fourth edition, this classic has been updated to reflect the latest federal tax and regulatory legislation, and it is filled with new charts, tables, and examples suitable for the needs of today's manager. From basic economic concepts to accounting conventions, the broad range of topics examined in Finance for the Nonfinancial Manager include: cash flow management, banking relationships, security markets, credit policies, and capital acquisition. You'll also find practical guidelines for such important skills as how to: * Interpret balance sheets. * Design budgets and P & Ls. * Apply break-even analyses. * Decipher financial statements. Now more than ever, being a manager in the competitive marketplace requires a solid understanding of key aspects of finance. This revised and expanded edition of Finance for the Nonfinancial Manager shows you how to get a handle on the basic concepts and principles you need to run and maintain a successful

business.

Readers get tips and insight regarding what to look for when reading financial statements, how businesses measure profitability, how to stay on top of the budgeting process, and how to track cash flow.

Finance for Strategic Decision Making demystifies and clarifies for non-financial executives the basics of financial analysis. It shows how they can make important financial decisions that can critically enhance their institution's ability to respond to competitive challenges, undertake new projects, overcome financial setbacks, and most importantly, create shareholder value. Written by M. P. Narayanan and Vikram K. Nanda—two of the country's leading authorities on financial strategy—this book offers a practical guide for using financial analysis to enhance strategic decision making. The book includes a coherent framework that outlines practical and intellectually sound guidance for executives who must make strategic decisions. Finance for Strategic Decision Making Explains the role of finance in corporate strategy Offers guidance on resource allocation decisions Explores how to determine the right balance of debt and equity capital to maximize firm value Demonstrates how to use payout policy as a strategic tool Clarifies if a merger, acquisition, or divestiture is in the best interest of an organization Shows how to manage risk Reveals how to measure value created and the effectiveness of upper level management

Gives you the confidence to ask the right business questions, make the correct finance decisions and competently speak the language of commerce to your colleagues, managers, customers and stakeholders. The Financial Times Guide to Finance for Non-Financial Managers will show you how to transform seemingly complex financial information and statistics into data that makes sense. And into data that you'll feel confident talking about. You'll learn the language of finance, which will help you better formulate decisions on a day-to-day basis. The book will also help you identify the warning signals and understand key performance indications and ratios. You'll learn how to make better financial decisions, identify ways to increase profits and have increased confidence in approaching capital projects and making sound business decisions.
