The first novel in the long-running sword-and-planet series set on a Counter-Earth, where warriors rise above the chaos of bondage and brutality, Tari Cabot has always believed himself to be a citizen of Earth. He has no inkling that his destiny is far greater than the small planet he has inhabited for the first twenty-odd years of his life. One frosty winter night in the New England woods, he finds himself transported to the planet of Gor, also known as Counter Earth, where everything is dramatically different from anything he has ever experienced. It emerges that Tari is to be trained as a Tarnsman, one of the most honored positions in the rigid, caste-bound Gorean society. He is disciplined by the best teachers and warriors that Gor has to offer . . . but to what end? Rediscover this brilliantly imagined world where men are masters and women live to serve their every desire. Tarnsman of Gor is the 1st book in the Gorean Saga, but you may enjoy reading the series in any order.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. --From publisher description.

EDWARD M. ERDELAN, Author of Andersonville, Monstrumführer, The Van Helsing Papers, and The Merkabah Rider series presents his first collection of short fiction, spanning nearly a decade of fishing in the sunless depths of the imagination, some brought to light here for the first time. A frontiersman of bizarre pedigree is peculiarly suited to tracking down a group of creatures rampaging across the settlements of the Texas Hill Country..... A great white hunter is shaken to his core by a quarry he cannot conceive of.... A bullied inner city kid finds the power to strike back against his tormentors and finds he can't stop using it.... Outraged plumbing plots its revenge....

Here Blackfoot Indians hunt the undead, the fate of nations is decided by colossal monsters, a salaryman learns the price of abandoning his own life, and even the Angel of Death tells his story. EIGHTEEN 'CATCHES' FROM AN ANGLER IN DARKNESS
