Do you want to learn how to write the Hebrew letters with the proper stroke technique? Do you need a trustworthy resource to teach your small children to trace the Hebrew alphabet? Then this workbook is the perfect companion for your studies. In it, you'll find all the Modern Hebrew consonants and the vowel diacritic marks. This workbook includes both the manual print and the cursive version of each letter. On top of that, you'll also find the dagesh (dotted) and sofit (end of word) letters. Your benefits: Clear large letters make it easy to recognize even the most detailed of the Hebrew characters. Pronunciation instructions help you recognize the character you are drawing. Detailed stroke order instructions provide you with a strong foundation to build your handwriting skills. Dedicated "Trace and Learn From Right to Left" sections are designed to imprint proper stroke technique unto your muscle memory. Font variations train your brain to recognize alternative character styles, including an alternate cursive Hebrew font. As a bonus, for each character, you'll find two extra 8.5 x 11 inches pages fully dedicated to the handwriting practice of that letter in both the manual print and cursive style. Feel free to photocopy these bonus pages as you wish to extend the lifetime value of your workbook. On page 103 you'll find a reference chart detailing each of

the niqqud diacritical signs, followed by several pages of vowel calligraphy training. Special information: Like all Lang Workbooks, this work is a labor of love. Accordingly, if you are a teacher, a student of Hebrew, or homeschooling your children, then you can photocopy any part of this workbook for your own, or your students, personal use. Learning to write the Hebrew script by heart has never been easy.

Typography and Language in Everyday Life provides a detailed look at graphic as well as linguistic aspects of language and suggests there is much to be gained from collaboration between typographers and applied linguists. The first part of the book provides an introduction to aspects of typographic theory and history and suggests some areas of applied linguistics that offer approaches to studying graphic language. The second part comprises case studies which look at the relationship between prescription and practice for visual organisation by considering everyday display typography, house style and typing manuals, and letter-writing. Each of these subjects is looked at from historical and theoretical perspectives. Aimed at those who may be unfamiliar with theoretical and historical perspectives on the graphic aspects of language, and with broad concepts in applied linguistics, the book also directs readers to areas of further reading in each of these fields. Extensively illustrated with examples of past and present graphic language, Typography and Language in Everyday Life is essential reading for students of typography, graphic design, applied linguistics and education, as well as the general reader.
