Homeopathic remedies can be safely and effectively used for all species of animals. Homeopathy is even applicable to birds and reptiles, and special notes on these species are included at the end of the manual.

Homeopathy has a two-hundred year track record in helping people and animals to come through emergencies and common ailments. Christopher Day has condensed 43 years of veterinary practice experience into this ebook, to enable home treatment of the family pet, whether dog, cat, rabbit, budgerigar or tortoise, without danger of side effects and without risk of interfering with any concurrent veterinary drug medication. Fifty useful homeopathic medicines are briefly described and a treatment guide is given for scores of ailments and health problems. This is a handy ebook for anyone interested in self-help medication of their pets. Enhance pet health and well-being, while reducing veterinary bills. This ebook will save its price many times over, the first time it is used.

Revised 2015. Starting out as a project on Facebook, 40 homeopathic first-aid medicines were posted. This eBook has descended from that, with more medicines (50) and with the original ones augmented. The medicines are described in a clear and easy-to-read way, outlining their application in first-aid, emergencies and common ailments. All domestic animal species are considered.

NEW! Priced with sensitivity to the level of altruism shown by those who rescue and help sick or injured wild creatures, this eBook covers the major conditions one is likely to encounter. Whether it is a fledgling bird fallen from a nest, a swift or pigeon exhausted from flight, an animal injured at the roadside, a victim of a bungled shooting or any other emergency situation, this eBook should provide the 'good Samaritan' with the medical know-how to make a positive difference and increase the chances of the victim's survival. Christopher Day has 43 years of experience in veterinary practice and his childhood also encompassed such wildlife rescue work.

This is a comprehensive guide to treating small pets such as dogs, cats, guinea pigs, rodents, reptiles and birds with homeopathic remedies. It includes essential information on the principles and practice of homeopathy, as well as practical guidance for owners, breeders and veterinary surgeons. There are sections on getting started with homeopathic remedies, on homeopathic first aid and on treating specific diseases. The advice is illustrated by selected case studies.

NEW! Goats are wonderful creatures; enigmatic, paradoxical, mischievous, inquisitive and fun. They appear robust in health but can quickly become dangerously ill and lose the will to live if not treated promptly and correctly. This eBook provides homeopathic treatment information for most conditions likely to be met, whether on a farm, a smallholding or a single-goat household.

NEW! An eBook providing extensive information about the treatment of donkeys for common ailments, accidents and emergencies. Donkeys are all-too-often treated as small horses or ponies or as 'weak sisters' to horses. They are not. The donkey is a species of its own and deserves special consideration appropriate to its needs.

NEW! Probably the most comprehensive guide to the homeopathic treatment of birds that is currently available, this eBook is a first-aid guide to the treatment of accidents, emergencies and common ailments in domestic fowl (poultry). All species respond well to homeopathy and birds are no exception. However, little has hitherto been written about their homeopathic treatment. Homeopathy sits well with organic enterprises, in which the residues of conventional drugs are discouraged where compatible with animal welfare. All species are covered, including chickens (cockerels and hens), geese, ducks, turkeys, guinea fowl, pheasants, partridge, quail, bantams, peafowl, budgerigars, canaries, birds of prey (raptors), doves, racing pigeons and carrier pigeons.
