~~The ic-718 is a good starting rig for the price. The receiver is decent but icom got it wrong by getting the filters that need to be soldered vs slotted. The audio is a bit choppy which takes a while getting used to. I sold mine as i was not at all happy in terms of receiving capabilities.~~

The Icom IC-718 is the perfect rig for those who (like me) want something affordable and easy to operate. Touch screens and menus do not interest me. What interests me is a rig that I can put on the air and operate without having to refer to the manual before I can turn it on. This rig just works. It's not fancy. It just works.
