The American claim that we should love and be passionate about our job may sound uplifting, or at least, harmless, but Do What You Love exposes the tangible damages such rhetoric has leveled upon contemporary society. Virtue and capital have always been twins in the capitalist, industrialized West. Our ideas of what the "virtues" of pursuing success in capitalism have changed dramatically over time. In the past, we believed that work undertaken with an

Access Free It Do What You Love F K It

ethos of industriousness promised financial stability and basic comfort and security for our families. Now, our working life is conflated with the pursuit of pleasure. Fantastically successful—and popular—entrepreneurs such as Steve Jobs and Oprah Winfrey command us. “You’ve got to love what you do,” Jobs tells an audience of college grads about to enter the workforce, while Winfrey exhorts her audience to “live your best life.” The promises made to today’s workers seem so much larger and nobler than those of previous generations. Why settle for a 30-year fixed

rate mortgage and a perfectly functional eight-year-old car when you can get rich becoming your "best" self and have a blast along the way? But workers today are doing more and more for less and less. This reality is frighteningly palpable in eroding paychecks and benefits, the rapid concentration of wealth in the hands of a tiny few, and workers' loss of control over their labor conditions. But where is the protest and anger from workers against a system that tells them to love their work and asks them to do it for less? While winner-take-all capitalism grows

ever more ruthless, the rhetoric of passion for labor proliferates. In *Do What You Love*, Tokumitsu articulates and examines the sacrifices people make for a chance at loveable, self-actualizing, and, of course, wealth-generating work and the conditions facilitated by this pursuit. This book continues the conversation sparked by the author's earlier Slate article and provides a devastating look at the state of modern America's labor and workforce.

An illuminating investigation into a class of enterprising women aspiring to "make it" in the social media economy but often finding only unpaid work. Profound transformations in our digital society have brought many enterprising women to social media platforms—from blogs to YouTube to Instagram—in hopes of channeling their talents into fulfilling careers. In this eye-opening book,

Brooke Erin Duffy draws much-needed attention to the gap between the handful who find lucrative careers and the rest, whose "passion projects" amount to free work for corporate brands. Drawing on interviews and fieldwork, Duffy offers fascinating insights into the work and lives of fashion bloggers, beauty vloggers, and designers. She connects the activities of these women to larger shifts in unpaid and gendered labor, offering a lens through which to understand, anticipate, and critique broader transformations in the creative economy. At a moment when social media

offer the rousing assurance that anyone can “make it”—and stand out among freelancers, temps, and gig workers—Duffy asks us all to consider the stakes of not getting paid to do what you love.

Believe In Yourself and Do What You Love gently guides readers through a series of simple yet impactful steps toward realizing their goals and achieving lives of purpose. A meaningful gift for a friend, family member, or yourself, this little book offers a lifetime of practical wisdom.

In this inspiring and

humorous book, John C. Parkin suggests that saying F**k It is the perfect Western expression of the Eastern spiritual ideas of letting go, giving up, and finding real freedom by realizing that things don't matter so much (if at all). It's a spiritual way that doesn't require chanting, meditating, or wearing sandals. And it's the very power of this profanity that makes it perfect for shaking us Westerners out of the stress and anxiety that dominate our daily lives. With the help of this book, people around the world are now saying F**k It to their worries and concerns, to the

"shoulds" and the "oughts" that dominate their lives, and finally doing what they want to, no matter what others might think. "Self-help for the time-poor and psycho-babble intolerant."
