Letter From the Editor, 2012Dear Reader, Thank you for picking up this magazine. Inside you will find a world of wonders. If you are like most people you will flick through and look at the art first. We are proud to feature gallery prints from iconic photographer Kim Weston. The art editor and I met Kim a few years ago at the Henry Miller Library over dinner, and have been trying to get his beautiful photographs in our magazine ever since. It is thanks to the dogged tenacity of River Tabor that we are able to feature work by an astounding member of the Weston dynasty. Tim Youd did an entire art exhibit based on a passage out of Henry Miller's Tropic of Capricorn. We have a poem by Big Sur visitor and raconteur Richard Brautigan. This poem seems to embody the internal landscape of the author. We are fortunate to have so many talented people in the planisphere that is the Henry Miller Memorial library, and are happy to have so many West Coast writers and artists featured in this issue. The Library is an amazing cultural venue, a local's hang out, a bookstore, a concert venue, and a film theatre, but it is also a fragile watershed. Our commitment to keeping this delicate ecosystem in check is part of why this year we have launched into our capital fundraising campaign, in an effort to retrofit Emil White's little cabin into a place that hosts such acts as

Thurston Moore of Sonic Youth. I met Thurston on a damp afternoon at the library. I am not an interviewer per say, but I do love listening to people's stories. Thurston Moore and I talked about poetry and art under a persimmon tree, the interview featured herein is the fruit... The East Coast is always well represented since half of our editors live in Brooklyn, which I like to call the poetry capital of the U.S. of A. We have the wondrous poets Leah Umansky, J. Hope Stein, Joanna Penn Cooper and Angela Wong featured. Enjoy! Maria Garcia Teutsch

This book provides a practical guide detailing the aetiology, diagnosis, relevant pathology, management principles, and outcomes of a variety of injuries to the shoulder including rotator cuff disorders, glenoid bone loss, and pectoralis major ruptures in both elite and non-elite athletes. Each chapter features clinical pearls and a question and answer section to emphasize key points. Sports Injuries of the Shoulder is an essential book for those seeking an up-to-date resource. It is aimed at sports doctors and musculoskeletal doctors; senior orthopedic trainees with an interest in upper limb and those preparing for the FRCSOrth exam and similar international exams, as well as surgeons with a particular interest in shoulder conditions.

Monet's series of paintings of the Rouen Cathedral, thirty-three works in all, under various natural conditions are collected together for the first time
