Ukraine: the country and its agriculture; Land reform legislation; The new private sector; Reorganization of farm enterprises; The effect of reorganization on farm employees; Market services and infrastructure; Rural social services and restructuring of the collective sector.

Agricultural reforms, including privatization of land and farm restructuring, are an important cornerstone for overall transformation of the economies of the former socialist world. This paper summarizes the current status of land reform in Moldova and shows how there

# Read Book Land Reform And Farm Restructuring In

has been clear progress in creating a market-based agriculture and food sector in Moldova. The results of this study indicate that genuine restructuring and transition to full-fledged private farming have resulted in improved profitability and higher incomes for private farmers than those achieved by traditional collectives.

In the past fifteen years, most countries of Central and Eastern Europe and the Commonwealth of Independent States have shifted from predominantly collective to more individualized agriculture. These years
