This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Rose is a princess, a Cinder, and half-human. She is the last one born of her kind, and on her twenty-first birthday, she must enter the woods and travel to find her Prince, as her sisters did before her. ". . . And we will all dance at the Grand Ball," her sisters would always say. But the Human servants are keeping a secret that could prevent the Cinders from reaching their Happily Ever After....Hidden in Rose's dreams and vision are the answers of the past between Cinders and Humans, and she is quickly running out of time trying to solve their hidden messages. She knows the answer lies in her first clue--identifying an animal she has never seen before--that persistent vision of a furry white animal, holding a gold metal object and exclaiming, "Oh dear! Oh dear! I shall be too late!"

The information contained in this book contradicts nearly everything you've been led to believe about democracy and "representative government." Based on the groundbreaking research of respected historian Carroll Quigley, "Tragedy and Hope 101" reveals an unimaginably devious political system, skillfully manipulated by a handful of elite, which is undermining freedom and democracy as we know it. The goal of those who control the system, in Quigley's own words, is to dominate "all habitable portions of the world." Using deception, theft, and violence, they have achieved more toward this goal than any rulers in human history. However, the Information Age is quickly derailing their plans. The immorality of their system, and those who serve it, has become nearly impossible to hide. Awareness and resistance are growing...Tragedy is yielding to hope.
