A single social tariff to help the 1.5 million people in England and Wales who are currently living in water poverty would end the "postcode lottery" of support from firms, a consumer group ...

Jesus was not afraid to shake people up. He spoke openly of their sinful nature and the righteousness of God. He forced people to confront their sin head-on, and He brought them face-to-face with their need for salvation because He loved them. Who do you know who isn't saved? If they died tonight, where would they spend eternity? Do you care? If so, what are you doing to help them? The Way of the Master will put a great tool into your hand and will teach you how to share the message of the gospel simply, biblically, and without fear the way Jesus did! You will become equipped to confidently lead anyone friend, family member, coworker, neighbor, or stranger on the street to a clear understanding of repentance and what it means to be a true and active follower of Jesus Christ.

Fascinating stories based on the author's exploration of eight rivers in New York and Québec.

The author of the bestselling celebration of discipline explores the great traditions of Christian spirituality and their role in spiritual renewal today. In this landmark work, Foster examines the "streams of living water" — the six dimensions of faith and practice that define Christian tradition. He lifts up the enduring character of each tradition and shows how a variety of practices, from individual study and retreat to disciplines of service and community, are all essential elements of growth and maturity. Foster examines the unique contributions of each of these traditions and offers as examples the inspiring stories of faithful people whose lives defined each of these "streams."

In *The Heavenly Man*, you learned the story of how God took a young half-starved boy from Henan Province and enabled him to stand strong on the frontlines for Jesus Christ, braving horrific opposition and impossible odds. *Living Water* is a collection of Brother Yun's dynamic teachings that evolved from his life experiences of persecution and revival in China. Brother Yun shares how the grace of God sustained him during his darkest hours and how that darkness transformed into the infectious joy and zeal for the Lord that are the hallmark of his ministry today. This unique book teaches us that radical faith is not for a chosen few, but for every believer who dares to call Jesus Christ Lord.

Sprung from the pages of *The New Testament*, *Living Water* is a gripping and lyrical portrayal of a young women's search for identity set against the strict social confines of the time. This extraordinary first novel brings to life one of the most mysterious and intriguing characters in the Bible — the woman at the well. In a village torn apart by senseless violence, a young girl struggles to mute her passion for life to survive the harsh social restrictions of her people. Catapulted into a series of abusive marriages, she soon becomes a woman unrecognisable from the little girl she once was. After her fifth husband is found bloody and beaten, she emerges amid the scandal and accusations to try and reclaim her life. In the tradition of *Their Eyes Are Watching God*, *The Color Purple* and *Paradise*, Obery Hendricks uses both fine detail and broad strokes to crisply depict this period of early history. And in doing so, this sophisticated literary debut delivers a universal tale of liberation and reconciliation, love and faith.

How many souls have you won to Christ? How many are still walking with the Lord? All, some, a few? The facts are: Evangelical success is at an all time low. We're producing more backsliders than true converts. The fall-away rate—from large crusades to local churches—is between 80 to 90 percent. Why are so many unbelievers turning away from the message of the gospel? Doesn't the Bible tell us how to bring sinners to true repentance? If so, where have we missed it? The answer may surprise you. One hundred years ago, Satan buried the crucial key needed to unlock the unbeliever's heart. Now Ray Comfort boldly breaks away from modern tradition and calls for a return to biblical evangelism. If you're experiencing evangelical frustration over lost souls, unrepentant sinners, and backslidden "believers," then look no further. This radical approach could be the missing dimension needed to win our generation to Christ.

Substitution. This is the great sin of the Israelites in the Old Testament. In Jeremiah 2:13, God states that they had committed two evils. They had forsaken God, "the fountain of living waters," and had replaced Him with broken cisterns, "which can hold no water." This is also the great sin of the Laodicean Church and the average church member in America today; God calls them wretched, and miserable, and poor, and blind, and naked. What happened? In both cases, the average "believer" had substituted the power of the Holy Spirit for acts of religion. In the average church, focus is on activity, pounding ungodly rock music, and "excitement" all of which gets the blood pumping and the heart beating fast, but is a work of the flesh nonetheless. God also called the Laodicean Church member lukewarm. The actual temperature of lukewarm is 98 degrees, near the natural body temperature. Lukewarm is a production of the flesh in worship. This book serves as both a warning and as a teaching tool to instruct honest seekers yearning to live a life in the power of the Holy Spirit. It's not only necessary, but is what God expects of a true Christian. The choice is yours: living waters...or broken cisterns.

Science shamelessly steals from God's creation, yet refuses to give God the glory! How the glow of a cat's eyes innovates road reflectors The naturally sticky inspirations for Velcro and barbed wire A fly's ear, the lizard's foot, the moth's eye, and other natural examples are inspiring improvements and new technologies in our lives Engineers and inventors have long examined God's creation to understand and copy complex, proven mechanics of design in the science known as biomimicry. Much of this inspiration is increasingly drawn from amazing aspects of nature, including insects to plants to man in search of wisdom and insight. We are surrounded daily by scientific advancements that have become everyday items, simply because man is copying from God's incredible creation, without acknowledging the Creator.
