"German baking is legendary and informs baking traditions the world over: Christmas cookies, coffee cakes, delicate tortes, soft seeded rolls, and hearty dumplings all have their origins in Germany (and Austria). In Classic German Baking, blogger and author Luisa Weiss--who was born in Berlin to an Italian mother and American father, and married into a family of bakers with roots in Saxony--has collected and mastered the recipes most essential to every good baker's repertoire. In addition to the pillars of the German baking tradition, like Christmas stollen, lebkuchen, and apple strudel, Weiss includes overlooked gems, like eisenbahner--an almond macaroon paste piped onto jam-topped shortbread--and rosinenbr©ætchen--the raisin-studded whole wheat buns that please a child's palate and a parent's conscience--to create the resource that bakers across the world have long wanted, "--Baker & Taylor.

This is the best account of the life of an IRA volunteer yet written. The Irish Times No better explanation of why ordinary people turn to terrorism has ever been written. O'Doherty's compelling story is a brilliant, firsthand account of how the boy next door became a bomber...O'Doherty traces his early involvement with the IRA with disarming honesty and humour...Most riveting, however, is the story of his disillusion with the romance of republicanism and his complete denunciation of violence...The Volunteer is an excellent study of the civilian turned terrorist turned civilian. The Catholic Herald O'Doherty gives a graphic account of the making of an IRA man. Perhaps the book's greatest strength, and no doubt the feature that, as O'Doherty predicts, will irritate, is the emotional tone in which the story is told. He tells it how he saw and felt it at the time. When he is a stubborn, impetuous youth, he recounts as a stubborn, impetuous youth. When he is a blinkered perpetrator of callous violence, he recounts as a blinkered perpetrator of callous violence. When he becomes an older-but-wiser

committed pacifist, the tone shifts yet again to reflect that incarnation. *The Independent* (London) About the Author: Shane O'Doherty joined the IRA at 15 years of age and was later arrested. He was one of the first prisoners to work his way past the negativity of the philosophy of armed struggle, beginning to recommend publicly and privately an end to violence and a full engagement with the democratic process. From his prison cell, O'Doherty courageously wrote letters of apology to his victims. He was released after serving 14 years and read for a degree in English at Trinity College, Dublin. A provocative new novel from bestselling author T.C. Boyle exploring the first scientific and recreational forays into LSD and its mind-altering possibilities In this stirring and insightful novel, T.C. Boyle takes us back to the 1960s and to the early days of a drug whose effects have reverberated widely throughout our culture: LSD. In 1943, LSD is synthesized in Basel. Two decades later, a coterie of grad students at Harvard are gradually drawn into the inner circle of renowned psychologist and psychedelic drug enthusiast Timothy Leary. Fitzhugh Loney, a psychology Ph.D. student and his wife, Joanie, become entranced by the drug 's possibilities such that their " research " becomes less a matter of clinical trials and academic papers and instead turns into a free-wheeling exploration of mind expansion, group dynamics, and communal living. With his trademark humor and pathos, Boyle moves us through the Loneys ' initiation at one of Leary ' s parties to his notorious summer seminars in Zihuatanejo until the Loneys ' eventual expulsion from Harvard and their introduction to a communal arrangement of thirty devotees—students, wives, and children—living together in a sixty-four room mansion and devoting themselves to all kinds of experimentation and questioning. Is LSD a belief system? Does it allow you to see God? Can the Loneys ' marriage—or any marriage, for that matter—survive the chaotic and sometimes orgiastic use of psychedelic drugs? Wry, witty, and wise, *Outside Looking In* is an ideal subject for this American master, and highlights Boyle ' s acrobatic prose, detailed plots, and big ideas. It ' s an utterly engaging and occasionally trippy look at the nature of reality, identity, and consciousness, as well as our seemingly infinite capacities for creativity, re-invention, and self-discovery.

This new collection of essays by West Germany's most distinguished Roman Catholic theologian covers the two broad areas indicated in the title. The first half discusses the Christian understanding of God; the place of Christianity in the modern world; the modern sense of freedom and history and the theological definition of human rights; christology and anthropology; and the possibilities of a new spiritual christology in a trinitarian setting. The second half discusses various aspects of the church: as universal sacrament of salvation; as the place of truth and as communion. Two final studies examine the continuing challenge of the Second Vatican Council and the fundamental form and meaning of the eucharist. An extended introduction considers systematic theology today and the tasks which confront it.

Brightly coloured prints, portraying model behaviour or a better future, have been a ubiquitous element of Chinese political culture from Imperial times until present. As economic reform swept the People's Republic in the 1980s, visual propaganda ceased to depict the tanned and muscular labourers in a proletarian utopia, so typical of preceding decades. Instead, Western icons of progress and development were employed: high-speed bullet trains, spacecraft, high-rise buildings, gridlocked free-ways and projections of general affluence. Socialist Realism was phased out by design and mixed- media techniques that were influenced

by Western advertising. This lavishly illustrated study traces the development of the style and content of the Chinese propaganda poster in the decade of reform, from its traditional origins to its use as a tool for political and economic purposes.
