The BMW M50 is a straight-6 DOHC petrol engine which was produced from

Online Library M50 Engine Wiring

1990 to 1996. It was released in the E34 520i and 525i, to replace the M20 engine.. In September 1992, the M50 was upgraded to the M50TU ("technical update"), which was BMW's first engine to use variable valve timing. Called single VANOS by BMW, the system adjusted the phasing of the intake camshaft.
