Authors Eric Noreen, Peter Brewer, and Ray Garrison have crafted a streamlined Managerial Accounting book that is perfect for non-accounting majors who intend to move into managerial positions by focusing on the fundamentals to develop the conceptual framework managers need to succeed. This is done by adhering to the three core standards: FOCUS Noreen/Brewer/Garrison pinpoint the key managerial concepts students will need in their future careers. With no journal entries or financial accounting topics to worry about, students can focus on the fundamental principles of managerial accounting. The manager approach in Noreen allows students to develop the conceptual framework needed to succeed, with a focus on decision making and

analytical skills. RELEVANCE Building student interest with its insightful Business Focus vignettes opening each chapter, current In Business examples throughout the text, and tried-and-true end-of-chapter material, students will always see the real-world applicability of Noreen/Brewer/Garrison. BALANCE There is more than one type of business, and so Noreen/Brewer/Garrison covers a variety of business models, including nonprofit, retail, service, wholesale, and manufacturing organizations. Service company examples are highlighted with icons in the margins of the text.

"Realizing that most students in an introductory managerial accounting course are not going to major in accounting, this book seeks to position managerial accounting in a broader context of business decision making."--Pref.

The first edition of the book is brought out due to the demand from the readers of my book Accounting for Managers .The book Problems and Solutions in Accounting for Managers presents the problems and solutions on various topics with a number which is meant for beginners and advanced learners as the book serves both the categories of learners.The book will be of immense use to the students who wish to enhance their

accounting skills at managerial level for decision making purposes, especially B.Com., BBM, BCA, MCA, MBA and practitioners.

A less-expensive grayscale paperback version is available. Search for ISBN 9781680922936. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
