Manual Changeover Switch Box For  
In case of power failure, the manual  
changeover switch can be changed to  
to the generator / inverter position.  
This way, power supply will continue  
to the load points through the inverter  
or generator. When power supply  
restores from the power house, simply  
switch back the changeover switch  
position to the “ Main Power  
Supply ” .
