Mori Seiki Control Questions (options on MAPPS IV?) We're seriously considering an NLX-2500Y lathe with Mitsubishi control (M730BM) running their MAPPS IV software. I've had a hard time deciphering from the quote and the various online material what exactly comes with the control and what are options.

Last time I looked at a VMC, it had MAPPS IV which seemed to indicate it included Esprit as well as a wifi setup to let you run the cam software on PC. Which all seemed like a plus. Now it says MAPPS V and CELOS but no mention of ESPRIT. CELOS looks shiny but not nearly as useful as a CAM package. So does it still include ESPRIT or did it get replaced with iphone apps?
