Everyone has a daunting "bucket list" of things to complete before they die. The problem? We spend too much time creating lists of what we want to achieve instead of just doing it. The Big Bucket List Book will transform the way you look at the world and the power you have to achieve your dreams. In this charming and practical collection, Gin Sander offers over 130 fresh ideas for infusing your life with a bit of glamor, adventure, and style for every budget and adventure level, including: □ Staying in a castle to channel your inner romantic (did we mention you could do it for free?) □ Joining a bike race in Tuscany or giving back with a humanitarian mission in Africa □ Taking a songwriting class as the next Joni Mitchell or Jack White □ Eating pie (need we say more?) It's time to stop listing, and start living! With this book in hand, you can make your next chapter the most enriching and personally fulfilling of them all...and maybe change the world while you're at it.

This journal is a safe place for your dreams to live. This is where you can track your dreams and update them as you evolve over time. This journal is designed to help you overcome the greatest barriers that will stop you from achieving your goals. The following pages will help you take tangible steps towards your goals and help you achieve them. The problem is that our personal goals often take the back burner in our busy lives. They are the first things to fall through the cracks of our packed schedules and most of us continue to push our personal goals until it's too late. When we reach our final days we regret the things we didn't do, not the things we did. When researchers from Cornell asked thousands of people on their deathbed to name the biggest regret in their entire life, 76% of participants had the same answer, "Not fulfilling my ideal self." This statistic not only broke my heart but it was a turning point in my life. My mission became to not only ensure that I didn't end up in that 76% but to also help as many people as I could to not end up there either. It's wild to think that over three-quarters of the population will reach the end of their life and think, "Damn. I wish I'd had the courage to live a life true to myself. Not the life that others expected of me." The goal of The Bucket List Journal is simple: ensure that you do not reach your deathbed regretting the things you did not do. My bucket list transformed my life. It changed the realities of my friends and my family and I believe it has the power to change your life too.
