Rhode Island's contribution to World War II vastly exceeded its small size. Narragansett Bay was an armed camp dotted by army forts and navy facilities. They included the country's most important torpedo production and testing facilities at Newport and the Northeast's largest naval air station at Quonset Point. Three special, top-secret German POW camps were based in Narragansett and Jamestown. Meanwhile, Rhode Island workers from all over the state - including, for the first time, many women - manufactured military equipment and built warships, most notably the Liberty ships at Providence Shipyard. Authors from the Rhode Island history blog smallstatebighistory.com trace Rhode Island's outsized wartime role, from the scare of an enemy air raid after Pearl Harbor to the war's final German U-boat sunk off Point Judith.

This volume investigates the reception of a small historical fact with wide-ranging social, cultural and imaginative consequences. Inspired by Leif Eiriksson's visit to Vinland in about the year 1000, novels, poetry, history, politics, arts and crafts, comics, films and video games have all come to reflect rising interest in the medieval Norse and their North American presence. Uniquely in reception studies, From Iceland to the Americas approaches this dynamic between Nordic history and its reception by bringing together international authorities on mythology, language, film and cultural studies, as well as on the literature that has dominated critical reception. Collectively, the chapters not only explore the connections among medieval Iceland and the modern Americas, but also probe why medieval contact has become a modern cultural touchstone.

The first biography of Annie Smith Peck, an early feminist and accomplished adventurer who changed the rules for women.

Raised from Rhode Island farmers and millworkers in the autumn of 1861, the Union soldiers of Battery G fought in such bloody conflicts as Antietam, Chancellorsville, Gettysburg, Spotsylvania, and Cedar Creek. At the storming of Petersburg on April 2, 1865, seven cannoneers were awarded the Medal of Honor for heroism in the face of the enemy. This history captures the battlefield exploits of the “Boys of Hope” but also depicts camp life, emerging cannon technology, and the social events of the Civil War.
