For years, Bailey's life has revolved around his adoration for Lock. The young shifter abandoned all his old hobbies and friends in order to worship the gorgeous rock star. Other people laugh off his theories about the seductive singer being in the closet, but Bailey is a hundred percent sure that it's true. When he doesn't manage to get tickets to Lock's latest concert, the omega fanboy comes up with a better plan. He'll wait outside and get Lock to autograph his back, then get the signature tattooed. Nothing could possibly go wrong. Lock Claybourne doesn't usually pop boners while making his way through crowds of screaming fans. He's strangely attracted to the boy outside his show - and not just because of the bold request that he makes. The electric hum that crackles between them is too intense to be imaginary. Lock needs to see this particular fan again, even if he can't explain why. But loving Bailey doesn't fit with Lock's bad boy image... and not everyone profiting from his success wants what's best for him. (Omega Groupie is Book 6 of the Fated Date Agency series. It also stands alone as a complete 200-page gay shifter mpreg romance novel. Guaranteed HEA ending with no cliffhangers!)

SHORT DESCRIPTION Solve the puzzle of a Human Seed and its cosmic destiny! Find the answers pertaining to its origin, evolutionary stages and genetic fulfilment, while understanding Life as a celestial programme, the Seed as a biological computer and the Creator as a power beyond religious dimension. Illustrated with 70 artistic black and white drawings. **LONG DESCRIPTION** Earth is a cosmic greenhouse - a medium of intensive evolution for all life-forms dwelling on it. Our essence-gene comes to this planet and merges with the genes of our mother and father, to create a foetus and to evolve. From the very beginning, we are continuously nurtured and educated by various terrestrial influences. However, there are countless ways in which our cosmic homeland takes care of us too - such as through cosmic currents that shower our planet or through comets that pass it. These celestial energy supplements are prepared and delivered according to the planetary consciousness level and its evolutionary needs. The evolvment and the knowledge we gain here are therefore not solely our personal triumph or a local, planetary, affair - but a result of invisible celestial efforts to activate genetic ciphers of the Human Seeds pulsating on Earth. The structure of this exceptionally worthwhile book resounds the 7x7 code of the Seed's evolutionary trajectory. Starting off with the genesis of a Seed, throughout 7 chapters, author sheds light on the influence of time-energy as well as on the Seed's inner mechanisms for the unfolding of the essential properties that lead to its genetic completion and harmonisation with the collective field. Some of the subjects elaborated, within 7 sections of each chapter, are Human Brain and Thought; Origin of Knowledge, Resurrection; Science and Religion; Creator; Ego and Love. "THE SEED" is an invaluable discourse on human life observed from a cosmic perspective. With profound reflections on the fundamental existential topics, and through the introduction of a cosmic paradigm of human capacity, the book provides a spiritual background for all truth seekers to make their presence on Earth a more meaningful experience and prepares them to meet a new era of human existence. It will particularly excite those individuals who dare to ask why die, why reincarnate and who trust their inner knowing that we are immortal beings. **TABLE OF CONTENTS** Introduction - Why dying, why reincarnating; 1 - The Seed and the Introduction - Why dying, why reincarnating; 1 - Cosmic origins; 2 - Energy of time; 3 - Core properties; 4 - Learning through opposites; 5 - Inner mechanisms; 6 - Sprouting of the essence; 7 - Fitting into collective field **RIEVIEW** The sheer scope and breadth of The Seed I found delightful and awe-inspiring. I experienced the text as a series of truths that resonated with me throughout. The many beautifully drawn illustrations/diagrams add a great deal to The Seed by creating a strong visual atmosphere, bringing the text to life, and clarifying the meanings. Incredibly appropriate quotes from the great scientist Nikola Tesla have been added throughout. These add an extra dimension that reverberates profoundly. The writing of The Seed I would describe as spare and clear, uncluttered and frequently beautiful in its precision. Each sentence conveys its meaning very directly. I found The Seed to be enjoyable and inspiring, and zipped through in a single sitting on each of the two occasions so far that I have read it. During the first reading in particular I transformed. This occurred by a process of stripping back much that is untrue and false, and afterwards felt I was a different person, more real and truly alive. Much of The Seed has been recast from The Knowledge Book, and as such provides an ideal introduction and bridge to that masterpiece of advanced dimensions. I recommend this book to everyone!
