Chapter 4 on Learning in Middle Grades and Secondary Schools

Online Library Science Instruction In The Middle And Secondary Schools Developing

begins with an appeal to use the latest research on “learning science” but that supposed science ephemeral, lacks a paradigm, and has a track record of failure. Indeed, education is rightly accused of having amnesia, forgetting what does work and repeating what did not work.

The Next Generation Science Standards (NGSS) are K–12 science content standards. Standards set the expectations for what students should know and be able to do. The NGSS were developed by states to improve science education for all students. A goal for developing the NGSS was to create a set of research-based, up-to-date K–12 science standards.

Next Generation Science Standards

A middle school life science curriculum teaches students a number of important concepts pertaining to cells and heredity, the five kingdoms, human body systems, and ecology. Students will start the year by going over various principles crucial to any science study including scientific inquiry, hypotheses and analyzing data.
