Over the past two decades, small groups have gone from spontaneous gatherings among friends to a major and elaborate phenomenon in the church. Many evangelical churches have some form of small groups ministry in place. But there's just one problem, says Bill Search--what started as a simple get-together has become a complicated process, especially for small group leaders.

They are often not sure what is expected of them or what to expect from their groups as a result of their efforts. In *Simple Small Groups*, Search lays out the three C's of small groups--connecting, changing, and cultivating. This paradigm helps to simplify leading small groups in a way that is helpful, rewarding, and life changing. Unlike many other books geared toward small group leaders, *Simple Small Groups* does not require a church-wide adoption of an intricately designed system of assimilation, making it useful to any small group leader looking for guidance.

Brings a group of people together—from marriage enrichment to divorce recovery, from grief recovery to spiritual formation—members are part of a small group because they want to grow. This book by psychologists Henry Cloud and John Townsend provides small-group leaders with valuable guidance and information on how they can help their groups to grow spiritually, emotionally, and relationally. With insights from their best-selling book *How People Grow*, Cloud and Townsend show how God's plan for growth is made up of three key elements: grace plus truth plus time. When groups embrace those elements, they find God's grace and forgiveness and learn how to handle their imperfections without shame as they model God's love and support to one another. In addition to

describing what makes small groups work, *Leading Small Groups That Help People Grow* explains the roles and responsibilities of both leaders and group members. Employing tenets from the book *How People Grow*, this book equips leaders to understand the ins and outs of how to promote growth, and using principles from their best-selling book *Boundaries*, they show how to identify and find solutions for common problems such as boredom, noncompliance, passivity, aggression, narcissism, spiritualization, over-neediness, over-giving, and nonstop talking.

Fragmentation can be found in small groups, and yet the majority of small groups—at least in the traditional sense—are often not the intentional, transformational community we really want and need. Somehow we need to get our groups off life support and into authentic community. Pastor Brad House helps us to re-imagine what gospel-centered community looks like and shares from his experience leading and reproducing healthy small groups. With wisdom and candor, House challenges us to think carefully about our own groups and to take steps toward cultivating communities that are able to glorify Jesus, bless one another, and participate in the mission of God.

Our life is a journey of piling things onto ourselves-covering ourselves with layers and layers of how we want to be seen, and who others expect us to be. The more layers we pile on the harder it is for anyone to get to know us, for us to be able to show anyone who we truly are, for us ever to feel connected. Because to feel connected, to feel truly understood and loved, we have to be known-not for our layers but for the beating heart underneath them all. So that's what we're doing. In the next 6 weeks, we're taking off the layers one by one. We're going to do the hard,
