NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. Intended for algebra-based introductory physics courses. This package includes MasteringPhysics®. Built from the ground up for optimal learning; refined to help students focus on the big picture College Physics: A Strategic Approach Technology Update applies the best results from educational research, extensive user feedback and metadata to all design and content, helping more students understand the big picture, gain crucial problem-solving skills and confidence, and better prepare for class. College Physics: A Strategic Approach Technology Update, Third Edition is accompanied by a significantly more robust MasteringPhysics before, during, and after class. New Dynamic Study Modules focused on fundamental math and physics concepts help students better prepare before class while new Prefecture Videos address common misconceptions students have when learning physics for the first time while reinforcing class preparation. Now, more than 200 new QR codes appear throughout the textbook, enabling students to use their smartphone or tablet to instantly watch interactive videos about relevant demonstrations, new Dynamic Figure Videos, problem-solving strategies, and solutions explained by the authors. Newly Enhanced End-of-Chapter Questions offer students instructional support right when they need it, including wrong-answer specific feedback, links to the eText, and math remediation when completing homework assignments. Personalize learning with MasteringPhysics from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. For courses in College Physics. Help students see the connections between problem types and understand how to solve them For more than five decades, Sears and Zemansky's College Physics has provided the most reliable foundation of physics education for students around the world. With the 11th Edition, author Phil Adams incorporates data from thousands of surveyed students detailing their use and reliance on worked examples, video tutorials, and need for just-in-time remediation when working homework problems and preparing for exams. Driven by how students actually use the text and media today to prepare for their exams, the new edition adds worked examples and new Example Variation Problems in each chapter to help students see patterns and make connections between problem types. They learn to recognize when to use similar steps in solving the same problem type and develop an understanding for problem solving approaches, rather than simply plugging in an equation. The expanded problem types and scaffolded in-problem support help students develop greater confidence in solving problems, deepen conceptual understanding, and strengthen quantitative-reasoning skills for better exam performance. All new problems sets are available in Mastering Physics with wrong answer specific feedback along with a wealth of new wrong answer feedback, hints, and eTexts links with 20% of end of chapter problems. Also available with Mastering Physics by combining trusted author content with digital tools and a flexible platform, Mastering personalizes the learning experience and improves results for each student.Now providing a fully integrated experience, the eText is linked to many problems within Mastering for seamless integration between homework problems, practice problems, textbook, worked examples, and more. Note: You are purchasing a standalone product; Mastering Physics does not come packaged with this content.
