The Fate of Africa by Martin

Meredith is a impressively
through (688 pages) and yet
highly readable account of the
history of Africa - all of Africa,
including North Africa - since
independence, beginning (after a
good introductory chapter on
general African history) with the
independence of the Gold Coast
(becoming Ghana) in 1957 all the
way up until events in the mid
2000s, including such issues as
the genocide in Rwanda and
Burundi, the civil wars in Liberia
and Angola, the collapse of Jose

Paperback

~~The Fate of Africa: A History of
the Continent Since ...~~

The Fate of Africa is a lively and accessible history of Africa over the last fifty years. Narrative histories of individual countries with a focus on people and key events make for easy reading, though the content itself is mostly rather depressing. Meredith's approach is broadly chronological and geographical, but not strictly so.

The Fate of Africa: A ...~~

After decades of mismanagement and corruption, most African states have become hollowed out. They are no longer instruments capable of serving the public good. Indeed, far from being able to provide aid and protection to their citizens, African governments and the vampire-like politicians who run them are regarded by the populations they rule as yet another burden they have to bear in the struggle for
