Written with student pastors and pastors in the early years of their ministries in mind, this book explores the key situations all pastors encounter in hospital visitation. Beginning with the idea that pastoral care in the hospital setting consists of a "trialogue" between pastor, patient, and presence of God, the author explains the pastor's role in terms of six principal relationships.

Ready-to-use prayers to connect hospitalized persons with the presence of God.

Offering prayer is one of the most important parts of a pastor's hospital ministry. These prayers connect persons with the power of God, remind persons who they are as children of God, and sometimes put into words deep experiences of suffering, grief, and pain. These prayers are offered especially for difficult times when you may not be sure how to pray or what to pray for. Also related Bible verses are printed in full. The Just in Time! Series offers brief, practical resources of immediate help for pastors at an affordable price. Included are prayers related to illness or surgery. Prayers for persons facing surgery, post surgery that was successful, post surgery that was not successful, anticipating bad news, diagnosed with a serious progressive illness, recovering from heart surgery, suffering from a stroke, dealing with cancer, coping with breast cancer, undergoing chemotherapy, suffering from addiction, unable to be diagnosed with the source of illness, needing a transplant and waiting for an organ, in chronic pain Prayers related to children and youth: Celebrating the birth of a child, mourning a miscarriage, grieving the loss of a baby near birth, mother choosing adoption for her newborn, adoptive parents receiving their child, pre-mature infant,

baby who is hospitalized, child who is hospitalized, youth hospitalized for drug treatment afraid to face parents, youth who most likely will not recover Prayers related to dying and death: For someone longing to die, prognosis that is not positive, does not have long to live, when death is imminent, prayer over a stillborn infant, for family members who were unable to say goodbye to loved, one before death, for surviving family who lost loved ones in the same accident, for family whose loss was due to suicide Prayers related to accident or violence: Injured due to street violence, injured due to natural disaster, rape victim, victim of domestic violence, injury due to war Prayers related to: New immigrant who has fallen ill, recent refugee, college student, suffering depression, patient who also has Alzheimer's, enduring painful rehabilitation, facing a long recovery, farmer anxious about crops and/or animals, hospitalized while incarcerated, someone unconscious, developmentally disabled patient, attempted suicide (prayer with family present), psychotic patient, worrying over child deployed in the military, worried about paying for the hospital bill, wanting to go home but cannot, wanting prayer for family members, feels guilty about surviving an accident, grieving friends who died in the same accident Sara Webb Phillips is a United Methodist Pastor and Editor of Homily Service. She currently resides in Durham, North Carolina.

The Skilled Pastor is a creative and practical training book that details the specific skills necessary for sound pastoral guidance in various situations. The author integrates theological reflection with practice, while incorporating religious resources with counseling technique.

The Lutheran Handbook has engaged countless Christians in their everyday faith with a distinctive blend of seriousness and humor. Now The Lutheran Handbook for Pastors does the same for pastors! This book captures all the essential information any pastor needs close at hand to prevail in any circumstance and have a good chuckle along the way: How to Support and Empower the Church Council without Becoming a Dictator or a Wallflower, Luther's Five Biggest Pastoral Dilemmas and How He Handled Them, Ten Things You Should Never Say to a Parishioner, How to Recover from Christmas and Easter Overload, How to Preach a Stewardship Sermon without Sounding Like You Are Begging for a Raise, How to Keep Both Your Job and Your Family, How to Use Your Family Members as Sermon Illustrations without Alienating Them or Boring the Congregation, How to Retire from Ministry Gracefully, ...plus dozens of other illustrations, diagrams, and essential tips! Book jacket.

Designed as a spiritual manual, this book outlines for lay people the principles of pastoral care ministry to the sick.

How Do You Care for the Sick? Here's How. One of the marks of the ministry of Jesus is his compassionate care for the sick. Jesus brought healing and hope to individuals struggling with life-debilitating illnesses. Ministry to the sick should also be a mark of his followers, but in many churches today it is neglected or pushed to the periphery of ministry concerns. To counter our modern tendency to minimize or ignore sickness, pastor Brian Croft looks to paradigms of the past and examines historical models of care that honor God, obey the teachings of Scripture, and communicate loving care to those who are struggling with sickness and disease. Part of the Practical Shepherding series of resources, Visit the Sick provides pastors and ministry leaders with real-world help to do the work of pastoral ministry in a local church. Visit the Sick gives pastors, church leaders, and caregivers the biblical, theological, pastoral, and practical tools they need to navigate through both the spiritual and physical care of the sick and dying.

After establishing a sound theological understanding of pastoral visitation, the authors examine the theological and ethical homework that the pastor must do as preparation for effectively doing hospital ministry. Concluding chapters deal with the patient's needs, the pastor's spiritual resources, the pastoral visit, and continued pastoral care after hospitalization. Key Benefits: Helps pastors understand the hospital context/culture; Helps pastors deal with defense mechanisms of patients; Helps pastors recognize the healing functions of guiding, healing, and sustaining; Helps pastors identify and utilize local resources within the hospital; Explains appropriate use of spiritual resources such as prayer, confession, and communion in the hospital sick room; Helps pastors and leaders to look inward at personal anxiety in the midst of illness

She had been killed in an automobile accident. Her husband was in route to the hospital. I met their minister in the hospital corridor. In utter desperation, he cried, "I feel so uncomfortable coming to the hospital. It's such a foreign environment. I don't know what to say or do. I've never done this before. Please tell me what to do." The patient said, "My pastor doesn't make hospital visits. He can't handle hospitals." When the unexpected arises and you find your parishioners hospitalized, are you equipped to support them effectively? Difficult situations can catch us off guard and unprepared. This concise "how to handbook" is a succinct resource of clear insight into hospital practices/protocol useful in training volunteers, parish visitors, pastors/chaplains and a helpful refresher guide for those that have studied hospital ministry. You will proceed with confidence as you minister to the sick and suffering.
