It shows in great detail how the transformation of NATO since 1991 has opened up new perspectives on the alliance's evolution during the Cold War. Viewed in retrospect, the 1960s were instrumental to the strengthening of NATO's political clout, which proved to be decisive in winning the Cold War - even more so than NATO's defense and deterrence capabilities.

The new EU-NATO agreement holds the potential of transforming not only European security, but also the transatlantic relationship. By enabling EU-led operations to draw on NATO assets and capabilities, both sides of the Atlantic stand to gain. The European Union will have the opportunity to demonstrate its potential as a serious security actor.
