weedy and invasive plant genomics

The Nature Conservancy of Canada (NCC) is trying to get control of large patches of perennial sow thistle, which is growing on areas of land it holds behind Blooming Point beach. The Nature Conservancy acquired the land in 2018, and discovered the invasive plant while surveying what was on the property

Nature Conservancy in battle against invasive weed on ...

Residents are urged to be on the lookout for an invasive weed spotted in Camden for the first time recently. Camden Council wants locals to keep a close eye on their ponds, dams, lakes, rivers and creeks after Frogbit (*Limnobium laevigatum*) was discovered at a property in Rossmore.
